

Heycoach!!

Release Update

2.34 to 2.35

Below is a list of the changes that have been introduced since 2.34

- 1 A new web page “Game Summary” has been added. This page displays the game summary results as well as a game report if one has been entered as a note in the game sheet capture.
- 2 The Game Results web page has been altered to allow a link to either the web game sheets or the web game summaries.
- 3 There was a bug in games scheduled in the wizard that had a minor affect on player stats (games played). This has been corrected
