

# Heycoach!!

## Release Update

### All versions to 2.20

This is the first time we are issuing a readme file with an upgrade therefore we can't explain or list all the changes that have happened since a particular release but 2.20 differs from all prior releases in that the Hockey and Baseball programs are now separate entities.

Prior releases used the executable **heycoach.exe** but this version now has 2 executables namely **Heycoachhockey.exe** and **Heycoachbaseball.exe** so you will have to change your desktop shortcuts accordingly. All copies of heycoach.exe can therefore be deleted.

The system still uses the **coachingcomm.dll** to access the database. In earlier versions **coachingcomm.dll** was located in the same folder as the executables but it has now been moved to the systems folder (e.g. windows\system). Only one copy of **coachingcomm.dll** should exist on your system. All copies of **coachingcomm.dll** that are not in the systems folder can be deleted.

Because of the above, when you start your system for the first time after the upgrade, the menu may be missing the "sport" section, don't worry it's normal just close the program and restart it and the menu will be back the way it was.

Functional changes that are new in 2.20 itself are as follows

- 1 The player find (binoculars in the toolbar) now allows you to search for players using the custom designed fields. Custom designed fields are displayed on the last page
- 2 A custom report writer allows you to design and print your own reports using both the standard and the custom defined fields
- 3 Cost per referee/linesman can be entered (in the lookup tables) and then using the official scheduling to schedule the officials, referee pay-stubs can be produced. A scenario would be the league schedules all the games and passes the database on to the head referee who then uses this data to schedule and pay his officials.
- 4 Any number of penalties types can now be tracked (e.g. fighting , checking from behind) and reported on in various sequences to discipline frequent then offenders

If you have any questions about or problems with the release contact us either by email at support @heycoachsoftware.com or phone 416-449-4495 ext 350 during office hours EST.
